Dear Dr. Uytico

RightSize Education Technologies, Inc. is presenting our new offer for **SPLAT** Student Information System (SIS) with **SPLAT Courses** for distance learning support for all schools in the Philippines.

This new offering allows teachers to distribute lessons with audio files to learners who have only periodic and constrained internet access. We have refined our technology over three years of working with provincial DepEd schools to use very little internet while ensuring extremely secure data. In addition to lessons, our SPLAT Courses module includes a robust offline quiz and exam engine with strong anti-cheating technology.

SPLAT (Supporting Parents, Learners, Administrators and Teachers) SIS and SPLAT Courses are well suited to support and complement the Learning Continuity Plan (LCP) of the Department of Education in response to the challenges brought about the COVID-19 pandemic. We understand the current healthcare challenges and the need for ongoing education. SPLAT software offers features that support the learning and teaching modalities that may be adopted under the LCP at an extremely reasonable price.

The SPLAT goals are:

- Increase student performance by improving parent awareness and participation in the learning process.
- Allow learners with limited budgets to safely continue their education even with only periodic and limited internet access.
- Provide tools for teachers to reduce their administrative burden so they can spend more time preparing and teaching.
- Support DepEd with school forms and standardized reporting. Every component of SPLAT has been engineered to meet or exceed RA 10173, the Data Privacy Act.

We are offering the use of SPLAT SIS and SPLAT Courses for P12 per learner per year for Philippine public elementary, public senior high schools and private schools. This rate is guaranteed until end of school year 2024 to 2025. Additionally, we have committed to offer SPLAT completely free for all Philippine public junior high schools until end of school year 2022 to 2023. After this, the rate is P12 per learner per year. These offers include use of cloud servers and hosting; use of software for web, Android, iPhone and iPad for teachers, families and administrators as well as flash reports.

We invite you to learn more about SPLAT SIS and SPLAT Courses. We host a webinar every Tuesday and Thursday at 9:00 am for 1 hour which includes a presentation and a live demo of the software. Please let us know if you would like to attend. Attached is the webinar invitation for your reference.

You may contact me via email at Nilde.deVera@RightSize.com or call me at 0922-886-5144 or 0995-275-8429. Our head of support, John Cauzon, is available at 0998-376-0950 or via email at John.Cauzon@RightSize.com

Sincerely,

Nilda de Vera
