Subject: **PLAY, BUILD, LEARN WITH MINECRAFT EDUCATION EDITION: CAPACITY BUILDING PROGRAM ON GAME-BASED LEARNING FOR DEPED**

As the Department of Education (DepEd) explores sustainable approaches to innovative teaching and learning, the Office of the Undersecretary for Administration (OUA) in partnership with Microsoft Philippines, Inc., will conduct a capacity building program on Minecraft Education Edition. This is a game-based learning platform that promotes creativity, collaboration, and problem-solving in an immersive digital environment.

The said program will be piloted in the Divisions of Leyte, Pasig City, Tagum City and Zambales and will be delivered via Microsoft Teams. All the important details of the program, including the link to sessions shall be coordinated directly with the Information Technology Officers of the said divisions.

The following are the objectives and phases of the program:

1. create more immersive learning dynamics in the classroom;
2. familiarize educators with classroom-friendly features to support classroom management and formative assessment; and
3. build a community of educators and student leaders who will continue to promote and support game-based learning for exploration, storytelling, and digital learning.

Attached is the program matrix for ready reference (Annex A).
