Dear Sir Fred,

Greetings!

This is regarding our phone conversation the other day in relation to initiating a regular updating of the progress of the construction of the GEC in order to support the monitoring of the construction activities by the Contractor that ensures quality and follows the specifications of the construction based on the approved construction design and plans.

We sincerely express our appreciation of your suggestion and we concur on the idea of a regular catch up meeting to share progress of the construction activities as partners together.

In this regard, as we have agreed, we will have an updating meeting and sharing on the 31st of January 2022 and hope to do this regular updating on a monthly basis in order to provide support to the on-going construction activity. It is also necessary that from both of our side we will be able to identify responsible persons in terms of monitoring the progress.

I assume that we will use google meet for this meeting and we look forward to receive the specific time of the appointed date as well as the google link.

Thank you as usual for your unwavering support to UNESCO.

With kind regards,

Redj
