BULLETIN OF INFORMATION

I. RATIONALE:

The Department of Education (DepEd) Bureau of Learner Support Services (BLSS) scaled out the Integrated School Nutrition Model (ISNM) across the country in 2018. As of December 2020, ISNM is being implemented by 273 Lighthouse Schools (LS) from 220 SDOs across all 17 regions of the country. In order to help improve the nutritional status, knowledge, and attitudes of schoolchildren, as well as the year-round productivity of the school garden, DepEd has collaborated on the ISNM project with the International Institute of Rural Reconstruction (IIRR), the Department of Science and Technology - Food and Nutrition Research Institute (DOST-FNRI), and other organizations. Lighthouse Schools serve as learning hubs for other schools to learn about ISNM. They implement the integrated model of regular school feeding program with a well sustained bio-intensive garden, and school-based nutrition education activities.

In February 2022, an online work conference was held that was participated by 373 schools composed of 1,464 teachers, principals, supervisors, GPP coordinators, and development officers across the country. The one-day, 16-batch online work conference re-oriented the Lighthouse Schools in implementing the Integrated School Nutrition Model. Schools identified common challenges implementing ISNM in the context of the COVID-19 pandemic and their adaptation strategies to maintain the integration of school feeding, gardening, and nutrition education interventions amidst the new normal. A combination of face to face and online activities such as the use of social media for campaign and monitoring success of school programs; partnership building; and development of nutrition education materials were extended to the parents of learners at home during the pandemic. Community involvement, partnership and capacity strengthening activities for both teachers and parents were highlighted in the workshop discussions. Strengthening capacities and partnerships can sustain the integration of school feeding, gardening, and nutrition education extending it to the homes and communities.

OBJECTIVES:

The **Lighthouse Schools** Online Conference aims to validate the conducted Online Survey on the status and activities on agrobiodiversity conservation/promotion and school food environment for garden resilience and healthy diets. Specifically, at the end of the training, participants should be able to:

1. To discuss the opportunities of lighthouse schools and crop museums on promoting agrobiodiversity for improving garden resilience and dietary diversity; and
2. To discuss and understand the factors influencing behavior of learners on consumption of health food products within the school.

II. DATES AND VENUES:

Date: January 12 & 13, 2023 (2 days)
Venue: via Zoom

III. BUDGET: PHP 700,000

IV. PARTICIPANTS

- Nutritionist- Dietitian II, ESSD
- Project Development Officer, GPP Regional Coordinator

V. PROGRAM OF ACTIVITIES (3hrs per day)

The online work conference employs lecture presentations, discussions, and workshops to present the results of the previously conducted ISNM Online Work Conference in February 2022 and the Online Survey this December 2022. A discussion on the opportunities of lighthouse schools and crop museums on promoting agrobiodiversity will be assessed during the workshop discussion. It will validate the results of the recently conducted survey on the extent of agrobiodiversity of schools and its benefits on the diets of schoolchildren and garden resilience. Participants will be divided into breakout rooms to answer the given guide questions. Factors affecting the learners' behavior towards consumption of healthy foods within schools will be assessed. This will enable us to understand the quality, accessibility, and availability of healthy foods as started in DepEd Order No. 13 s. 2017, influencing their decision and choices on what to eat within the schools.
