*"May natulungan akong isang bata who has a very low vision due to cataract, nakakuha ako ng sponsorship para sa kanyang operation. I also have a student, she is totally blind. There's an innovation (we made) using a wooden slate, similar to a braille slate. Ginawa namin to para makapag-practice ang mga bata kung pa'no gamitin ang braille."*

 2023 Dangal ng Bayan Awardee

Gay D. Galdo consistently upholds public interest in the creation of educational resources for visually-challenged pupils and dedicating her time beyond regular class hours. She conducted child mapping to identify children with special needs in different areas resulting in the development of improvised instructional materials such as contextualized Braille and assistive devices which greatly enhanced teaching methods for learners with disabilities.
