Dear Ma'am:

Greetings!

To be abreast of the rapidly evolving landscape and the demands of the industry, Higher Education Institutions in the region should be prepared and adequately equipped to maintain their relevance. Thus, the Eastern Visayas State University-Main Campus is considering the viability to offer a new program for the main campus- Bachelor of Secondary Education Major in English, designed to thrive amidst the growing influence of artificial intelligence tools in writing and meet the increasing demand of online teaching career in the country and abroad.

The college is currently embarking on a feasibility study to explore the potential launch of BSED-English for the school year 2025-2026. With this, we are asking permission to allow us to distribute the survey instrument of the said study to Senior High School students in Region VIII.

Additionally, we request the enrollment data for Senior High School students across all schools in the region, both private and public, to ensure we obtain a representative sample for our study.

Attached herewith is the copy of the survey instrument for your perusal.

Your approval and endorsement of our modest endeavor are greatly valued.

Sincerely yours,
