Subject: Modelling Workshop for the Multigrade Project

Dear Director Fetalvero,

Greetings! UNICEF Philippines is grateful for our continued partnership with the Department of Education (DepEd) in advancing children's rights to quality education. DepEd and UNICEF Philippines have supported more than 11,000 learners and 900 teachers from 196 multigrade schools, as well as 1,000 parents and community stakeholders in various parts of the Philippines.

In partnership with your office and with generous support from Roche, UNICEF Philippines is currently implementing the multigrade school project ("Mitigating the Learning Crisis with Digital Learning for Children in Multigrade Schools in the Philippines"). As part of the project, UNICEF Philippines aims to develop a modelling canvas to support national policy implementation for scaling up. National policy implementation sometimes falls short at the local level - and local pilots too often fail to scale up nationally. This modelling approach aims to bridge this gap. By learning how interventions work at the local level and working in parallel with the government to replicate them on a national scale, we can have the best impact.

In line with this, we would like to conduct a workshop to develop the modelling canvas on **Monday 25 November 2024**, from 8:00 AM to 2:00 PM at the DepEd Regional Office in Tacloban. The list and number of invited participants including the program have been included in the annex. Kindly confirm the names and designation of participants by **11 November 2024**.

Furthermore, kindly relay the information about the visit to the Division of Southern Leyte for their reference. UNICEF Philippines will cover the transportation of the participants to and from Southern Leyte and 1 night of accommodation

Should you have questions or concerns, please do not hesitate to reach out to Mr. Jukka Tulivuori (tulivuori@unicef.org). Thank you, and we look forward to your participation.

Yours truly,

Akihiro Fushimi
Education Chief
UNICEF Philippines Country Office
